management, Problem  
Solving, Teamwork

Languages: Polish, English,  
German

### EDUCATION

University of Northampton

2020 – 2023

DSc Software Engineering –  
second class, upper division

### PROFILE

I am a great proponent of GNU/Linux and Free and Open Source. I am passionate and dedicated software developer specializing in React.js front-end development. Graduated from the University of Northampton, UK. Currently working as a Mainframe developer while developing full-stack applications with React.js as a freelancer. Enthusiastic about travel and an avid cyclist. I do play drums.

### EXPERIENCE

Mainframe developer at BEC Poland

2023 – Present

- Developed and maintained mainframe applications using COBOL and DB2.
- Collaborated with teams to ensure seamless integration of mainframe systems with modern technologies.

Freelance Web Developer

2020 – Present

- Designed and developed full-stack web applications using React.js, Next.js, and various backend technologies.
- Managed multiple projects simultaneously, delivering high-quality code and meeting client deadlines.

### CERTIFICATIONS

- IELTS Academic Level
